PRODUCT DETAILS

New and unique design ergonomic mid-back office chair

The uniquely designed office chair is very suitable for placement in offices and meeting rooms. Executive armchairs with high and medium height backs. The inside of the backrest is made of shaped cotton, which has excellent mechanical resistance, shock resistance and deformation resistance, and is filled with polyurethane foam and is upholstered. For the backrest, we use a special process to move the waist back and use magnets to move lumbar magnetised to move it, to meet the user needs. The mid-back version has aluminium alloy armrests.

Seat adjustment devices include:

- Tilt system, with 4-position adjustment device, with side-mounted controls, the backrest tension can be adjusted according to the user's weight and the backrest lock/unlock system, and the tilt intensity can be automatically adjusted according to the user's weight. There is a tool under the seat to manually adjust the intensity according to user requirements.
- Seat height adjusted by gas lift.
